**LAW SUIT.**—In the Supreme Court of the District of Columbia, in Washington, yesterday, the case of the Board of Public Works of Virginia vs. English, executor of Withers et al., came on for trial. Mr. Cox appeared for the plaintiff. This is in fact a bill filed by the State of Virginia against the representatives of the late John Withers. Virginia transacts all business connected with her internal improvements by means of her Board of Public Works, an incorporated body. The suit stands, therefore, in the name of the Board of Public Works of Virginia vs. English, executor of Withers et al. The Board in 1853 sold Selden, Withers & Co., of this city, factors for the sale of State bonds, and from time to time deposited with them for sale sterling bonds to the amount of \$75,000 and coupon bonds valued at \$4,057,000. In 1854 Selden, Withers & Co. failed and made an assignment, being then largely indebted to the State of Virginia on account of bonds sold. In 1856 the United States filed a bill against the partners and the trustees, to which the complainants and others became parties, and in which the claim of the State of Virginia was reported by the Auditor at \$436,874.19, and small partial payments were, by order of the court, made upon it by the trustees under the assignment. In September, 1858, the Board sued all the partners and trustees in the Alexandria Circuit Court and obtained a decree for \$513,615.20, with interest. In 1860 J. H. Withers moved to this city from Alexandria and did here in November, 1861. He made a will, which sufficed to pass personal estate, leaving his estate in five parts—one to Columbia College, one to his brother, and one part to each of the decedents of a deceased brother and of two dead sisters. In October, 1865, these legatees filed a bill against Z. English, the only executor who qualified for a distribution, and on the 7th of April, 1866, a decree of distribution was passed, and stocks valued at \$77,110, and cash to the amount of \$62,333.03 were distributed. The present suit is founded on the Alexandria decree of 1860, and is brought against the legatees to compel them to refund the amount received by them. It also seeks to charge the executor with the whole personal estate in favor of the State of Virginia. The heirs, Gulek and wife, Madlen and wife, and Columbia College admit the receipt of various sums on account of the legacies, but set up various defenses. Mr. Cox presented the argument for the Board of Public Works, and was followed by Mr. R. J. Brent, for the defendants. Messrs. Davidson and Merrick are associated with Mr. Brent for the defendants. The case was not concluded.—*Washington Republican.*

**THIRD WARD RADICALS.**—A meeting of the Third Ward Radicals was held last night in the colored school house on Adair street, between Princess and Orconoe. T. I. Edelin in the chair and J. T. Cook, Secretary.

The committee on the County Convention, through J. T. Burnett, reported the action of the Alexandria city delegates to said Convention, and that the canvassers of the ward were working faithfully for the success of the cause.

The Canvassing Committee was remodelled by the election of Hannibal King, James Burnett, John Fields, Jas. A. Stoughton, Frank Pinkney, H. H. Arnold, Chas. Church, J. T. Cook, Alfred Lane and T. I. Edelin.

On motion of Jas. A. Stoughton it was resolved that the 31 Ward club resolve itself into a committee of the whole, for the purpose of seeing that all who were entitled should be registered.

Mr. Miller, on a vote of the club, was permitted to address the meeting.

Some remarks being made about finances led to a debate, participated in by John Fields, J. A. Stoughton, and J. T. Burnett.

Mr. Miller from the 4th Ward extended an invitation to the club and all the friends of Lewis McKenzie to a meeting of the 4th Ward club on Monday evening next.

Joseph Colton spoke of the importance of every man being registered on the 21st and 22d, and of his earnest desire to see Mr. McKenzie the successful candidate for Congress.

He promised his support and said that, as it was the progressive party of the age, and as its friends were his friends. He was frequently applauded during his speech, and received a vote of thanks for his effort.

The meeting then adjourned.

**REGISTRATION.**—The registration books were opened in the different wards of the city this morning, for the purpose of allowing all who have come of age since the last registration to have their names entered upon the list of voters, and to make such transfers as may have taken place since the last election. Mr. Robert Boll Jr., having resigned the registration of the First Ward, Judge Love appointed Mr. W. W. White in his stead. The books in the other wards are in charge of the same gentlemen who acted at the last registration; in the 2d, by A. E. Addison, in the 3d, by W. L. Milburn, in the 4th, by J. T. Burnett.

The importance of having the name of every Conservative properly registered can not be over estimated. Every male adult in the State, who is a legal resident, is entitled to register, there being no disqualification under the present Constitution for any past political action. But few availed themselves of the privilege of registration to-day.

**WASHINGTON & OHIO RAILROAD.**—The Cincinnati Chronicle of the 18th instant says: "At the close of business hours on Change to-day, President Rowland introduced to the Chamber Dr. J. C. Hill, of Alexandria, Va., who addressed the members of the chamber in a few remarks, stating that he represented the interests of the proposed railroad route to Washington, to be known as the Washington and Ohio Railroad, which the Doctor stated, would give Cincinnati, Chicago, St. Louis, and Louisville direct communication with the tide-waters of the Potomac. At the close of his remarks, J. P. Torrey, A. W. Mullen, E. J. Buckingham, S. G. Cunningham, and Samuel Reed were appointed a committee to confer with Dr. Hill in regard to the matter."

**BROOM FACTORY.**—The broom factory lately established in this city by Mr. Wesley Avery, is enlarging its operations and doing a prosperous business. Sales of the brooms manufactured here have recently been made to merchants on the South who had tried the markets rather North and who assert that as regards both quality and prices they were suited better here. A large invoice of Mr. Avery's brooms were shipped to North Carolina this morning and more are to follow.

**SUDDEN DEATH.**—We regret to announce the sudden death of Mr. T. A. Waters, formerly of the long established firm of Waters and Timmerman, extensive lumber merchants of this city. Mr. Waters had been indisposed for several days past, but his death was entirely unexpected.

## FOREIGN NEWS.

**LONDON Oct. 20.**—Despite the efforts of the Government to discourage such demonstrations, 20,000 people marched to Palace Yard last night and organized an immense meeting to express sympathy with Republican France.

The speakers violently denounced King William and an allusion to the apathy of John Bright was received with cries of "sham!"

Gladsstone's Government was bitterly reproached for its policy of abstention. A defensive alliance with France was advocated and a resolution adopted calling on Parliament to abolish the pensions to German Princes, including the Crown Prince of Prussia and Prince Louis of Hesse. It was declared that the sooner all Kings and Queens were dethroned the better. The feeling manifested in all quarters of the city during the night was revolutionary and threatening.

The Government had two regiments of infantry under arms all night in their barracks and extra police precautions were taken to repress any disorder; but no call was made for the interference of either military or police.

At 2 o'clock this a. m. the Prussian Embassy were insulted by a great concourse of people, with whom the police did not interfere.

At one of the largest foundries, the men at first thought their tools were coming toward them, but soon after discovered that it was the building in motion.

The California steam plough was tested on the fair ground, to day, in the presence of the committee appointed by the industrial exposition and several hundred practical farmers.

**CHARLES WHITTENBY,**

**U. S. COMMISSIONER,**

**AND ATTORNEY AND COUNSELLOR IN BANKRUPTCY.**

Congress having just amended the Bankruptcy law so that nearly all parties can be discharged from their debts unobscured by the fifty per cent clause, so called, another opportunity offers to secure the benefits of this most effective and permanent measure of relief. The above named will make bankruptcy business a specialty; will procure discharges at the most moderate terms, and transact all business in that line at prices which cannot fail to be satisfactory. Being U. S. Commissioner, he will endeavor to visit the different counties on court days, and thus save parties the trouble and expense of several trips to Alexandria in beginning and proceeding with their cases. Discharges can be obtained here before Register Hill as promptly as in Richmond or elsewhere, and at much less expense to parties. It may be added that the Bankruptcy act, in connection with the Homestead exemption, which is now believed to be secured to the bankrupt under the bankruptcy law, is the only real relief now offered to parties struggling in the hopeless bondage of old debts. ## SPECIAL NOTICES.

## SPREAD THE TRUTH.

Some medical men insist that it is undignified to advertise a remedy, however valuable it may be. Queer reasoning this. It is like saying "oh, an article which the world needs should be hid in a corner—that benefits and blessings may be too widely diffused—that the means of protecting and restoring health should be a close monopoly, and not accessible to all. The argument is bad. It is worse than that; it is dishonest. Suppose Hostetter's Stomach and Bowels—an absolute specific for dyspepsia, biliousness and nervous debility—had never been known beyond the repertoire of the faculty, what would have been the consequence? Instead of curing and invigorating millions, the good effects of the preparation would have been confined to a comparative few. There is the highest authority for saying that light should not be hid under a bushel; that whatever is excellent should be placed as a city on a hill, upon this principle that the Bitters have been advertised and continue to be advertised in every newspaper of any prominence in the western hemisphere, and that the spontaneous testimonials in its favor have been translated into all written languages. Thousands enjoy perfect health to-day who but a few years ago were afflicted with sickness if the newspapers had not spread the truth with regard to this unequalled invigorant and corrective far and wide. Suppose profit has been reaped from this publicity. Is that any argument against it? If the public health has been protected, if lives have been saved, if the feeble have been strengthened and the sick restored, great good has been accomplished; and who so mean as to grudge to exertions thus directed their fair reward? oct 17—cowlw

## SPEER'S PORT WINE.

The Port grape is now cultivated in this country for a wine called by any other, in its mellow richness, richness of flavor and brilliancy of color. The grape has been brought to a perfection never attained in Portugal by A. M. Speer, in his vineyard, New Jersey. Physicians say it is superior to imported Port for invalids, and in summer it is more agreeable and refreshing than claret. Clergymen use it for its purity as a communion wine, while the most fashionable families drink it as a dinner wine. [N. Y. Tribune]
